MEMORANDUM FOR: Director of Finance  
FROM: Bruce T. Johnson,  
Director of Data Processing  
SUBJECT: Agency Payroll System

1. We have completed your request to analyze requirements that might lead to a rewrite of the Agency Payroll System and are pleased to forward to you the attached study which was prepared STATINT by [REDACTED] of C Division.

2. It is clear from the Executive Summary that the resources required to develop a new payroll system along traditional lines would preclude our being able to commence work in the near future. We recommend, therefore, that a phased approach be adopted. This would allow us to properly maintain the present system, incorporating into it the near term (1-3 years) requirements outlined in the study in a manner such that they could also be easily integrated into an improved payroll system which would evolve in stages over time.

3. It is equally clear that some of your requirements deserve urgent attention. We hope to be able to satisfy these needs at the same time we provide support to the current system.

STATINTL 4. If you agree, I should suggest that your representative contact [REDACTED] so that we can plan a suitable course of action.

/s/ Bruce T. Johnson
